

New Magic Story 007

Anna's Decision

Anna is 19 and Flavia is 15.

They were both born in Brazil.

They both live with their parents in Brasília.

Anna goes to University in Brasilia and Flavia is still in High School.

Flavia goes to American School in Brasília.

Both girls are planning to go to USA to continue their studies.

As Anna already goes to University in Brazil, she needs to make a decision. She has to decide if she drops out of the Brazilian university and starts over in America or finishes her university in Brazil first, and then goes to America to get her degree in computer science.

Anna hasn't decided yet.

If she drops out of University in Brazil, she will start from the beginning in America.

If she stays in Brazil to finish university, she will have 3 more years in Brasília.

What do you think Anna needs to do?

Vocabulary

They were born in Brazil = *Elas nasceram no Brasil*

Anna goes to university = *Anna estuda na universidade*

Flavia goes to high school = *Flavia faz "segundo grau"*
